

Wake Forest University Graduate School of Arts & Sciences

Junior and Senior Science Majors

Research Opportunities in Biological, Biomedical and Physical Sciences

Summer 2010— June 1st to July 30th

Program Benefits

This program is designed to allow rising undergraduate junior and senior science majors interested in pursuing a graduate degree to sample the exciting research opportunities offered at the Wake Forest University Graduate School. During the nine-week experience, students will be exposed to basic lab techniques, technology used in biological, biomedical, physical science research, data collection procedures, and rules of documentation. In addition, each student will attend journal club meetings, departmental seminars, interact with current graduate students, and present their research at a poster symposium at the end of the summer session.

Poster Symposium

2009 Summer Program Participants

Financial Support

Participants will receive a \$3,000–\$3,500 stipend for the nine-week program and free housing on the Reynolda campus. Participants will also receive free van transportation between campuses.

Application Forms

Applications are available from the web: <http://graduate.wfu.edu>. Application materials must be received by February 15, 2010. Selection and notifications will be made by the middle of March.
